High-quality, reliable breakdown cover at a fraction of the cost

SilverKNIGHT RESCUE from Jempson's Insurance offers high-quality, reliable cover where you can **SAVE OVER £80** compared to the AA & RAC thanks to our NEW winter offer.

UK Only Cover

If it's UK cover you need, **RESCUE PLUS** is the cover level for you. Features include:

- **HomeStart** - to help you begin your journey when your car won't start
- **UK Roadside Assistance** - to get you back on the road
- **UK Recovery** - to take you and your car back home again
- **Onward Travel** - to take you and your car to your original destination
- **Overnight Stay** - to help you continue your journey the following day
- **24hr Hire Car** - to give you a replacement car while yours is repaired
- **Relief Driver** - to get you home if the driver is taken ill
- **Message Relay** - to let loved ones or colleagues know you'll be late

All this for just **£49.50**

(£54.50 for non-Savaclub members)

That's less than 14p a day for full UK cover and less than the cost of the cover provided by traditional breakdown companies, the AA and RAC, even the other supermarkets!

Extra benefits included FREE of charge

On top of the extensive benefits offered by both products, you'll also be covered for flat batteries, lost or broken keys, accidental damage to tyres and running out of fuel. So this cover really is comprehensive, meaning you'll be covered for every eventuality.
